

SAILING

High School Sailing is the fastest growing sport in Ohio.

SAILING AS A HIGH SCHOOL SPORT.

Competitive sailing involves fast-paced, short-course team racing, where one-design boats race each other without any handicaps, starting at the same time, sailing a set course and the winner of each race is the first to cross the finish line scoring points based on finish position with the lowest points winning. Teams compete locally, regionally and nationally in regattas and championships.

WHAT ARE THE BENEFITS OF JOINING THE SAILING TEAM?

- Sailing is a co-educational competitive sport.
- Colleges actively recruit talented sailors for their college teams.
- Sailing not only involves a high level of physical strength and agility but it teaches students about navigation, physics, the marine environment, and the importance of teamwork.
- Sailing is an activity that literally can take you around the globe and provide a warm introduction to other sailors in just about any country.
- Sailing is a sport that you will enjoy throughout your life.
- Supervised use of host club facilities, offering quality access to the water.
- Safety and rescue boats are on the water at all times with liability coverage under the Club's insurance policy.
- Professional coaching during regattas and practices.
